

Applied Statistics Teach-Out Advising Plan

Introduction

The Applied Statistics major is being discontinued. All required and elective math courses will continue to be offered through the Department of Mathematics and Statistics. Consult with your faculty advisor for the planned course schedule.

Advising for All Applied Statistics Majors:

Applied Statistics majors will be given *priority registration* for Fall 2025 and Spring 2026. Review your ARR before registration begins. If you have questions about what you need to take, please meet with your advisor early.

If students have a concentration in an impacted area (Geology, Physics, Economics, or other discontinued programs), they should prioritize completing those courses which may not be available after the 2025-26 academic year.
